The Automobile Law.

The following synopsis of the auto-
mobile law points out the things that au-
tomobilists cannot legally do in this
State:

- Run a car without a registration num-
ber, fee \$3 and \$5.
- Run a car without the number dis-
played upon the front and back of the
car.
- Run a car without a license, obtained
after a rigid examination.
- Run a car unless over sixteen years of
age.
- Run a car without a signal trumpet.
- Run a car at night without two lights
in front and one behind.
- Run a car more than ten horse-power
without two brakes, one of which must
act directly upon the drive wheels.
- Run a car with chains on the tires,
except in case of snow.
- Run a car that makes any loud noise.
Race another machine on any public
road.
- Drive a car faster than twenty miles
an hour in the country, or than at the
rate of one mile in seven minutes when
turning a corner or curve in a street
roadway.
- Drive a car faster than at the rate of
one mile in five minutes in the outskirts
of a town or city, or one mile in four
minutes in a city or town or when ap-
proaching a horse.
- Refuse to stop when any person driv-
ing a horse waves his or her hand as a
signal to stop.
- Break any of these commandments
unless he wishes to pay \$100 fine or take
ten days in jail. If he runs a car with
a defunct number and gets caught he
can be fined \$500 or be imprisoned sixty
days.

Social Opinion.
Social opinion is like a sharp knife.
There are foolish people who regard it
only with terror and dare not touch or
meddle with it; there are more foolish
people who, in rashness or defiance,
seize it by the blade and get cut and
mangled for their pains, and there are
wise people who grasp it discreetly and
boldly by the handle and use it to
carve out their own purposes.—Mrs.
Jameson.

Assistant Master's Lot In Hard.
If you take a scholar and a gentle-
man and make him do the work of a
nursemaid for the wages of a brick-
layer's laborer, coupled with the treat-
ment of a dog, you then get that fin-
ished product of civilization, the as-
sistant master at an English private
school.—Barry Pain in Tatler.

An Improbable Story.
"The editor looks downcast. What's
the matter with him?"
"He received a letter yesterday in-
forming him of a big legacy, and in the
rush he replied, 'Declined' with
thanks."

Not Anxious to Please.
Neptune—I say, Boreas, if you keep
on blowing like that you'll get yourself
disliked. Boreas—What do I care? It
isn't my business to furnish popular
satisfaction.—Modern Society.

Will Bump Automobilists.

Belleville township officials are tired
of complaints of automobilists speeding
through the principal streets of that
town, for though various measures have
been resorted to in an effort to check the
practice, all have been unsuccessful.
The Belleville Township Committee have
decided to try a new scheme, similar to
the one tried in Chatham. At Chairman
Amworth's suggestion it was decided to
raise three crosswalks over Main street
to the height of two inches. These cross-
walks are at a point north of Jerusalem
street, at William street and between
Schuyler and Bayard streets. Two of
these are private walks, but permission
has been given to have them raised. It
is figured that when the speeding autoist
strikes these crosswalks and gets a
severe bump he will slow down in ex-
pectation of others. If that effect is had
it will be just what is desired, and if the
scheme works other crosswalks will be
placed and raised on Main and Mill
streets, and probably on Washington
avenue, if arrangements can be made
with the Board of Freeholders.

Must Ask for New Franchise.
Under an opinion rendered yesterday
by John J. Delany, corporation counsel,
the Great Eastern Telephone Company,
which is seeking to establish an inde-
pendent telephone system in New York
city, must apply to the city for a new
franchise and meet terms which the city
is now imposing, or apply to the courts
to test the legality of its franchise, a
lengthy procedure.—New York Herald,

PLENTY

A cool kitchen, a hot day, and plenty of
hot water, are three things hard to reconcile.
But it can be done. A Gas Water Heater does
it. The gas flame heats the water (not the
whole house) in three or four minutes.
The heater is connected to the water sys-
tem so that water can be drawn in bath, laun-
dry or kitchen. With a gas heater there is
no carrying of hot water in bucket for bath-
ing or laundry use. Order one now. Price
\$8.50.
